

REVENUE NOTICE

April 2026
PSA/LRA-02/FY 2026

VAT Awareness Campaign

The Liberia Revenue Authority informs the public, especially the business community and all taxpayers, that a nationwide awareness campaign on Value Added Tax (VAT) is now ongoing.

This campaign forms part of preparations for the implementation of VAT in January 2027, which will replace the current Goods and Services Tax (GST).

The awareness initiative is designed to help citizens and businesses understand:

- *What VAT is and how it works?*
- *Who is required to register for VAT?*
- *The benefits of VAT to national development.*
-

VAT is a consumption tax applied at different stages of production and sale. Revenue generated from VAT will support critical national priorities, including infrastructure, healthcare, education, and other essential public services.

The LRA encourages all business owners, taxpayers, and the public to actively participate in awareness activities, cooperate with outreach teams, and seek accurate information from LRA offices nationwide.

For more information, please visit the LRA office near you, call 0770-572-572 or email info@lra.gov.lr.

This announcement is brought to you by the Liberia Revenue Authority in partnership with the Ministry of Finance and Development Planning.
