

Pay your Taxes through the LRA Bank Integrated Payment Platform

The **Liberia Revenue Authority (LRA)** is implementing a new tax management software application called the Liberia Integrated Tax Administration System (**LITAS**). LITAS is a “taxpayer centric” platform that allows taxpayers to meet tax obligations from any location through online self-services.

Amongst many services available to taxpayers, **LITAS** offers an integrated payment service where taxpayers can pay tax bills directly through commercial banks and get official receipt instantly. This has been made possible through the integration of **LITAS** with commercial banks application.

Payment Steps

1. Taxpayer files tax returns and prints payment slip which contains bill/document number.
2. Taxpayer logs into bank's internet banking platform, navigates to tax payment menu and enter bill/document number. If the taxpayer walks into the bank branch, s/he presents payment slip to a teller who then enter the bill/document number in the bank's platform.
3. Details of the bill is displayed to the taxpayer or teller (based on integrated web service).
4. Taxpayer or bank teller completes payment transaction on bank platforms.
5. If payment is successful, payment details is posted to LRA's LITAS (based on integrated web service). At the same time, LRA receipt number is posted to the Bank's system.
6. Taxpayer or teller prints up payment advice on bank system.
7. Taxpayer logs into LITAS and print official receipt.
